Score 90

This product is a HIT! Don't let the package scare you away – I know it's a goofy name "The crisp made entirely of cheese" but this gluten free and sugar free mini crisp is delicious! Just look at the ingredients – aged parmesan cheese – and that's it! Nothing is added, but don't under any circumstance put anything on top – the flavor is too good to be compromised. Retails for \$3.99.
